AEI DELIVERS ALOHA AIR CARGO B737-300SF

MIAMI, FL., --June 10, 2014 -- Aeronautical Engineers, Inc. (AEI), is pleased to announce that it has delivered a B737-300SF 9 Pallet Freighter to Aloha Air Cargo of Hawaii. The aircraft is a high gross weight Boeing 737-300 (MSN 27904) and was built in 1995. This is AEI's 9th of the anticipated 30+ freighters to be delivered in 2014.

"This is an exciting time for Aloha Air Cargo as we transition into a B737-300SF fleet. AEI has helped Aloha Air Cargo continue to build upon its 30 year history for providing safe and reliable Cargo services to our communities in Hawaii and beyond." Pat Rosa, Aloha Air Cargo Chief Operating Officer.

Mr. Robert T. Convey, Vice President of Sales & Marketing for AEI stated that "The entire AEI team is proud to be an integral part of Aloha Air Cargo's growth plan. Our commitment to deliver the industries safest and most reliable freighters have made AEI the number one choice for narrowbody conversions worldwide."

AEI's B737-300SF 9 Pallet Configuration shall provide Aloha Air Cargo with an Ancre CLS capable of carrying multiple ULD's including:

- (9) 88"x125" AAA Containers/pallets, P1 to P9 or
- (6) 96"x126" ULD's and

About AEI

Formed in 1958, Aeronautical Engineers, Inc. (AEI) is the oldest conversion company in existence today. For more than 55 years AEI has provided advanced engineering solutions to aircraft owners and operators. Today the company is a global leader in passenger to freighter conversions for a wide array of aircraft, helping customers extend the life of the aircraft and increase the value of their asset. AEI has developed over 120 Supplemental Type Certificates (STCs) and 388 aircraft have been modified with AEI STCs – more than any other conversion provider.

About Aloha Air Cargo

Headquartered in Honolulu, Aloha Air Cargo delivers fast, economical and reliable transport of goods between the Hawaiian Islands of Oahu, Maui, Kauai and the Island of Hawaii. It became an independent cargo operator after the closure of Aloha Airlines passenger services in May 2008. Aloha Air Cargo is owned by Northern Aviation Services, Inc., an Anchorage-based air cargo group that operates a fleet of owned and leased all-cargo Boeing 737s and Saab 340 aircraft and offers regularly scheduled intrastate flights in Alaska and Hawaii, as well as the Continental United States, Canada, and Mexico.
