AEI ADDS FLIGHTSTAR AIRCRAFT SERVICES AS AUTHORIZED CONVERSION CENTER

Miami, Florida – April 17th, 2017 – Aeronautical Engineers, Inc. (AEI) is pleased to announce that it has selected Jacksonville, Florida-based Flightstar Aircraft Services, LLC as an Authorized Conversion Center. The current success of AEI's passenger-to-freighter conversion products, which include the B737-400SF, MD80SF, CRJ200 SF and will soon include the B737-800SF, require that additional conversion capacity be added to handle the present market demand.

AEI currently has four active Authorized Conversion Centers worldwide, which include Commercial Jet Inc., in Miami, Florida, Commercial Jet Services in Dothan, Alabama, KF Aerospace in Kelowna, B.C. Canada and Boeing Shanghai Aviation Services Co., Ltd., in Shanghai, PRC. In all, offering a total of 11 to 13 conversion lines for AEI at any one time.

Flightstar was chosen by AEI as the fifth Authorized Conversion Center based upon its vast experience in passenger-to-freighter modifications, in addition to offering a full lineup of maintenance service offerings. Flightstar will set up one line of passenger-to-freighter conversions at its Jacksonville facility for AEI beginning in May of this year with the commencement of a B737-400SF freighter conversion which is being modified for San Francisco-based Vx Capital Partners.

About AEI

Aeronautical Engineers, Inc. (AEI) is a global leader in the aircraft passenger-to-freighter conversion business and is the oldest conversion company in existence today. Since the company's founding in 1958, AEI has developed over 125 Supplemental Type Certificates (STCs) and has modified over 442 aircraft with the STCs. AEI helps its customers extend

aircraft life and increase the overall value of aircraft assets by continuously focusing on dependable and flexible product offerings. AEI currently offers passenger-to-freighter conversions for the Boeing 737-400, 737-300, 737-200, MD-80 and CRJ200 aircraft. AEI will certify its 737-800 full freighter conversion in late 2017. www.aeronautical-engineers.com

About Flightstar Aircraft Services

Flightstar Aircraft Services, LLC is an FAA approved part 145 repair station with Class IV unlimited rating certification, located at Cecil Airport (VQQ) in Jacksonville, Florida. With three hangar facilities, and a climate controlled warehouse, Flightstar specializes in heavy maintenance and modification of Boeing (B717, B727, B737, B757, 767) and Douglas (DC-9, MD-80, MD-90) series commercial aircraft. Flightstar has industry leading experience in passenger to freighter conversions for both the B757 and B737 and offers custom paint services in a state of the art coatings facility capable of housing a B767-300ER. With the recent acquisition of Flightstar by MRO Holdings, Inc., the business is uniquely positioned to provide more comprehensive maintenance capabilities and solutions for the Airframe Maintenance market and bolstered by a 30 year proven track record of quality, safety, and dependability. www.flightstarjax.com
