AEI Delivers the Third B737-400SF 11 Pallet Conversion to Sideral Air Cargo

Miami, Florida – May 21st, 2015 – Aeronautical Engineers, Inc. (AEI) is pleased to announce that it has delivered the third B737-400SF 11 pallet position freighter to Brazil based, Sideral Air Cargo. The aircraft, built in 1995 (MSN 25377) is a high gross weight B737-400 and was converted and painted at Commercial Jet's Dothan, Alabama facility. Sideral has another B737-400SF on order with AEI which will be delivered in 2016.

The AEI B737-400SF is the only passenger to freighter conversion product that offers operators ten full height 88" x 125" container positions. This unique capability is achievable due to AEI's Main Deck Cargo Door location which is approximately 40" further back than the competition. The additional container position increases AEI's volumetric carrying capability by 10% which places the freighter in a class by itself.

AEI's B737-400SF shall provide Sideral Air Cargo with an Ancra CLS capable of carrying multiple ULD's including:

- (10) 88"x125" ULDs, P1 to P10 or
- (8) 96"x125" ULDs and
- (1) 53"x88"x64" Pallet or AEP/AEH or 60.4"x61.5" AKE/LD3 or 61.5"x88"x56"H AYY in P11

This unique flexibility has been designed by AEI to allow cargo operators to immediately adapt to multiple ULD configurations at a moment's notice. When combined with proven reliability, the AEI Converted B737-400SF will allow Sideral Air Cargo to keep their aircraft – "In the air, generating revenue".

About AEI

Aeronautical Engineers, Inc. (AEI) is a global leader in the aircraft passenger-to-freighter conversion business and is the oldest conversion company in existence today. Since the company's founding in 1958, AEI has developed over 120 Supplemental Type Certificates (STCs) and has modified over 400 aircraft with the STCs. AEI helps its customers extend aircraft life and increase the overall value of aircraft assets by continuously focusing on dependable and flexible product offerings. AEI currently offers passenger-to-freighter conversions for the Boeing 737-400, 737-300, 737-200 and MD-80 aircraft. Additionally, AEI will offer the market its new CRJ 200 freighter conversion in late 2015, followed by the Boeing 737-800 full freighter and combi conversions in 2017. www.aeronautical-engineers.com

About Sideral Air Cargo

Sideral Air Cargo arose from the innate entrepreneurship of Adorno Holdings, a business group consisting of more than nine companies which include, Sideral Air Cargo, Expresso Adorno, Iderol Ltda and Sider Sul Ltda. Sideral prides itself on being the first company to bring a Boeing 737SF to Brazil and has one of the youngest freighter fleets currently operating in Brazil. Currently Sideral operates one AEI B737-300SF, three AEI B737-400SF's and one ATR42-300. <http://www.sideralaircargo.com.br>

About Commercial Jet

Commercial Jet is an FAA and EASA approved repair station that specializes in scheduled and unscheduled heavy maintenance; line maintenance; modification services; complete airframe inspections; freighter conversions; interior modifications; avionics upgrade programs and complete aircraft painting. The company product offerings also include lease return services, and refitting passenger and cargo aircraft for return to market. With a combined of over half-a-million square feet (46,000 square meters) of multi-bay hangar facilities in Miami (MIA), Florida and Dothan (DHN), Alabama, Commercial Jet provides quality MRO services to passenger and cargo airlines, owners, lessors and military customers. Aircraft types supported include B717, B727, B737, B757, B767, DC8, DC9, DC10/MD-11, MD80/90, A320, A300 and the Bombardier CRJ family. www.commercialjet.com.
