AEI Announces Order from World Star for an 11 Pallet Position B737-400SF Freighter Conversion

Miami, Florida – February 9th, 2016 – Aeronautical Engineers, Inc. (AEI) is pleased to announce that the company has signed a contract with San Francisco based World Star Aviation to provide an 11 pallet position B737-400SF freighter conversion. The aircraft built in 1990 (MSN 24796) is standard gross weight and is being modified at Commercial Jet's Dothan, AL facility. The freighter will be re-delivered to World Star in June of 2016.

The AEI B737-400SF is the only passenger to freighter conversion product that offers operators ten full height 88" x 125" container positions. This unique capability is achievable due to AEI's Main Deck Cargo Door location which is approximately 40" further back than the competition. The additional container position increases AEI's volumetric carrying capability by 10% which places the freighter in a class by itself.

AEI's B737-400SF shall provide World Star with a highly flexible Ancra CLS capable of carrying multiple ULD's including:

(10) 88"x125" ULDs in P1 to P10 or

(10) 88"x108" in P1 to P10 and

(1) 53"x88"x64" Pallet or AEP/AEH or 60.4"x61.5" AKE/LD3 or 61.5"x88"x56"H
AYY in P11

This unique flexibility has been designed by AEI to allow cargo operators to immediately adapt to multiple ULD configurations at a moment's notice. When combined with proven reliability, the AEI Converted B737-400SF will allow World Star to keep their aircraft – **"In the air, generating revenue"**.

About AEI

Aeronautical Engineers, Inc. (AEI) is a global leader in the aircraft passenger-to-freighter conversion business and is the oldest conversion company in existence today. Since the company's founding in 1958, AEI has developed over 128 Supplemental Type Certificates (STCs) and has modified over 425 aircraft with the STCs. AEI helps its customers extend aircraft life and increase the overall value of aircraft assets by continuously focusing on dependable and flexible product offerings. AEI currently offers passenger-to-freighter conversions for the Boeing 737-400, 737-300, and MD-80 aircraft. AEI will certify its new CRJ200 SF freighter conversion in 2016, followed by the Boeing 737-800 full freighter and combi conversions in 2017. www.aeronautical-engineers.com

About World Star Aviation, Ltd.

World Star Aviation is a leading full service aircraft leasing company that manages, buys, sells, and leases commercial aircraft for the international aviation industry. The company concentrates on acquiring late-model, narrowbody Boeing and Airbus aircraft for lease to major passenger airlines and narrowbody freighter aircraft for deployment by international cargo carriers. World Star's depth of experience in evaluating used aircraft and managing complex and diverse leasing operations provide unique advantages to its international investors and airline customers. World Star's management is committed to providing the industry's best value and service to its customers and superior risk-adjusted returns to its investors. Our "freighter later" strategy has helped to "unlock" hidden asset values thus appreciably increasing returns on investments. www.worldstaraviation.com

About Commercial Jet

Commercial Jet is an FAA and EASA approved repair station that specializes in scheduled and unscheduled heavy maintenance; line maintenance; modification services; complete airframe inspections; freighter conversions; interior modifications; avionics upgrade programs and complete aircraft painting. The company product offerings also include lease return services, and refitting passenger and cargo aircraft for return to market. With a combined of over half-a-million square feet (46,000 square meters) of multi-bay hangar facilities in Miami (MIA), Florida and Dothan (DHN), Alabama, Commercial Jet provides quality MRO services to passenger and cargo airlines, owners, lessors and military customers. Aircraft types supported include B717, B727, B737, B757, B767, DC8, DC9, DC10/MD-11, MD80/90, A320, A300 and the Bombardier CRJ family. www.commercialjet.com.
