AIROD AEROSPACE SELECTED AS THE FIFTH AUTHORIZED AEI CONVERSION CENTER

MIAMI, FL., --December 3, 2013-- Aeronautical Engineers, Inc. (AEI) is pleased to announce that it has selected AIROD Aerospace Technology Sdn Bhd (AAe) as their fifth authorized AEI Conversion Center (ACC). AAe has a seven hangar MRO facility and will begin providing AEI B737-300SF & B737-400SF Passenger to Freighter (PTF) Conversions in the first quarter of 2014 for AEI customers.

The agreement was signed by Mr. David M. Sandri, CEO of AEI and YBhg. Brig. Gen. Dato' Abdul Rahim Rahman, Executive Director, MRO Services of National Aerospace & Defense Industries (NADI, the holding company of AAe) and was witnessed by Mr. Robert T. Convey, the Vice President of Sales & Marketing for AEI and YBhg. Tan Sri Dato' Seri Ahmad Johan, President of NADI.

Mr. Roy Sandri, President of AEI stated that "AEI is very excited to have established NADI & AAe as AEI's fifth ACC and the first in South East Asia. With AAe's comprehensive structural engineering background we are confident that they will help us grow in the region and attract new customers."

"NADI & AAe are very excited to have partnered with AEI and to become the first AEI Conversion Center in South East Asia. With our strong structural engineering background and manufacturing support, we are confident we will be able to contribute to AEI's growth in PTF conversions, especially in this region. With our 7 Hangars in Subang, we have ample capacity to expand our PTF conversion lines when the need arise. We look forward to serve more customers for both AEI & AAe", said YBhg. Tan Sri Dato' Seri Ahmad Johan.

AEI now has a total of 10 conversion lines spread over five facilities with slots allocated as follows; three lines at Commercial Jet in Miami FL, four lines at Commercial Jet Services in Dothan AL, one line at FlightStar in Jacksonville FL, one line at Boeing Shanghai Aviation Services in Shanghai China and now one line at AIROD Aerospace in Kuala Lumpur Malaysia.

About AEI

Formed in 1958, Aeronautical Engineers, Inc. (AEI) is the oldest conversion company in existence today. For more than 55 years AEI has provided advanced engineering solutions to aircraft owners and operators. Today the company is a global leader in passenger to freighter conversions for a wide array of aircraft, helping customers extend the life of the aircraft and increase the value of their asset. AEI has developed over 120 Supplemental Type Certificates (STCs) and 385 aircraft have been modified with AEI STCs – more than any other conversion provider. www.aeronautical-engineers.com

About AIROD Aerospace

AIROD, a wholly owned subsidiary of National Aerospace & Defence Industries, was established in 1976 and is today, a world class aviation MRO facility in Malaysia servicing up to 80 customers worldwide. Under NADI's expansion plan, AIROD commercial unit is now transformed to AIROD Aerospace Technology (AAe) to enhance the Commercial Aviation MRO expertise and services coverage. AAe currently operates in a facility containing 7 hangars with 15 aircraft bays capacity, including a dedicated, covered paint hangar. AAe's aircraft maintenance capabilities include line and base maintenance up to 'D' Checks for the B727 Series, B737 Series, ATR42/72 and the A320 Family. AAe is a Part 145 AMO certified by the Malaysian Department of Civil Aviation (DCA), the Federal Aviation Authority (FAA), the European Aviation Safety Agency (EASA) and a few other National Civil Aviation authorities. www.airodaerospace.com
